## Professional Summary

Full Stack Developer with hands-on experience building responsive web applications using React, Django, and RESTful APIs. Strong foundation in database design and management using MySQL. Passionate about building scalable backend systems and creating dynamic, user-focused frontend experiences.

## Technical Skills

|          |                                                                   |
|----------|-------------------------------------------------------------------|
| Frontend | HTML5, CSS3, JavaScript, React.js, Redux, Tailwind CSS, Bootstrap |
| Backend  | Python, Django, REST API Development                              |
| Database | MySQL (schema design, queries, optimization basics)               |
| Tools    | Git, GitHub, Postman                                              |

## Project

**Sweet Tooth Dessert Website** – React, TailwindCSS

Built a responsive dessert shop landing page featuring product showcases, navigation, and modern UI design optimized for user engagement.

**Live Demo** - <https://sweet-tooth-shop.vercel.app/>

**Social Media Backend API** – Django, MySQL

Designed and implemented a RESTful backend for a social media application including user authentication, posts, likes, and comments.
